The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a multilayer ceramic substrate with a single-via anchored pad with all limitations as recited in claims 1 and 10, comprising first, second, and third ceramic layers having first, second, and third metal plugs respectively, the first plug adhering to an outer pad, the second plug adhering to the first plug, the third plug adhering to the second plug, the second plug having a cross-section larger than that of the first plug, and there being only the first plug and the second plug for anchoring the outer pad to the multilayer ceramic substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
